EPSON TM88V THERMAL RECEIPT PRINTER

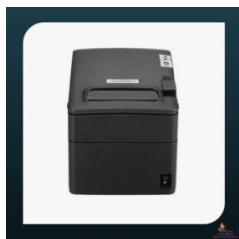

Epson TM88V Thermal Slip Printer USB /Serial/ Parallel Interface

The TM-T88V is a true breakthrough in the development of POS receipt printers, and the results are better for your budget and the environment. This is most clearly demonstrated with the paper reduction function, which cuts down on waste and cost. Green credentials are further proved by this being the first thermal receipt printer to be EnergyStar qualified.

Actual print speed is an impressive and efficient 300mm per second while multiple grey scale printing enables better representation of logos and graphic images. The TM-T88V works on several platforms, so it's simple to integrate into your network and it also comes with in-built USB IF which means easy migration to USB in the future.

This product meets the strict ENERGY STAR® guidelines set by the European Commission. Epson is a global manufacturer committed to protecting the environment for future generations by offering a range of ENERGY STAR® products. This is achieved by significantly reducing electricity usage, which saves energy, money and the environment, without compromising quality.

- High-speed printing of up to 300 mm/sec. Same speed for internal graphics
- Multi greyscale printing for high quality logo printing
- Automatic paper reduction function saves money

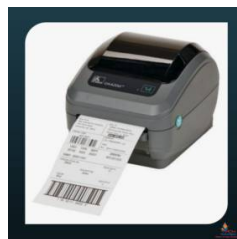

PARTNER RP-600 THERMAL SLIP PRINTER

Partner Tech's thermal printers are high speed thermal printer solution for retail and hospitality environment that require fast and quiet printing. Supporting a full range of fonts for different countries.

The RP-600 is a particularly fast thermal receipt printer with a printing rate of up to 230 mm/s at a resolution of 180 dpi. The compact size and high performance make this dependable model absolutely ideal for many applications. A wide range of interface and port options allows easy installation and simple integration to either POS environments or POS solutions.

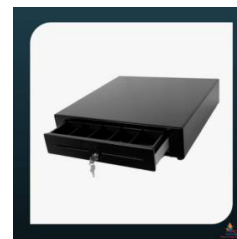

- Standard roll thermal paper
- 57.5-82.5mm paper width
- 230 mm/sec high-speed printing
- Supports full & partial cut
- Wall mounting
- Supports Serial, Parallel and Ethernet connections
- Compatible with a wide range of operating systems

ZEBRA GK420DT THERMAL LABEL PRINTER

Zebra's G-Series compact desktop printers deliver best-in-class speed and performance for print widths up to 104mm (4). From the basic GK model to the feature-rich GX model, the G-Series printers offer a reliable, durable and flexible desktop solution for any printing application and budget. Built with Zebra durability and reliability, the G-Series GK model provides the best value of all basic desktop thermal printers, while the premier GX model supports a variety of industries and applications with the widest range of features. Choose the space-saving direct-thermal version of either model for the smallest footprint of any 104mm (4) desktop printer, or the direct-thermal/thermal-transfer version to save users time with the easiest ribbon-loading system available. With both EPL and ZPL native on all models and a variety of connectivity options for personal, local and networked systems, the G-Series printers integrate easily and seamlessly with other Zebra printing solutions.

DIGITAL PERSONA 4500 FINGERPRINT READER

- Target Applications - Desktop PC security, Mobile PCs, Custom applications
- Indoor, home and office use
- Blue LED - soft, cool blue glow fits into any environment; doesn't compete in low light environments
- Small form factor - conserves valuable desk space
- Rugged construction - high-quality metal casing weighted to resist unintentional movement
- This product does not come with CD, software or manuals, Only the device is shipped.
- Pixel resolution: 512 dpi(average x, y over the scan area)
- Scan capture area: 14.6 mm (nom. width at center) 18.1 mm (nom. length)
- 8-bit grayscale (256 levels of gray)
- Reader size (approximate) 65 mm x 36 mm x 15.56 mm
- Compatible with USB 1.0, 1.1 and 2.0 (Full Speed) specifications

PARTNER RP100 USB/SERIAL/LAN THERMAL SLIP PRINTER

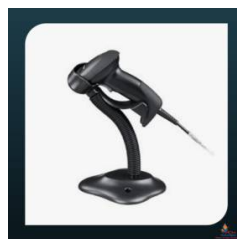

PARTNER RP100 USB/SERIAL/LAN THERMAL SLIP PRINTER

Triple Interface

Partner Tech's receipt printers are high speed receipt printer solutions for retail and hospitality that require fast and quiet printing.

The RP-100-300 II is a particularly fast receipt printer with a printing rate up to 300 mm/s at a resolution of 203 dpi. The compact size and integrated wall mounting make this dependable model absolutely ideal for many applications. A wide range of I/O Serial+Ethernet+USB port allows easy installation and simple integration to various POS solutions.

- ESC/POS & STAR command sets compatible
- Direct thermal line and 203 dpi
- Supports serial, parallel and Ethernet connections
- Built-in WebConfig page, makes Ethernet setting easy to use through IE
- Supports two-dimensional barcode printing function
- Standard GB18030 simplified / traditional Chinese characters library
- Large data buffer
- Characters can be enlarged, bold, underlined; character line spacing can be adjusted
- Supports different density bitmap and graphics printing
- Supports network printing status monitoring
- Windows, Linux and OPOS drivers available

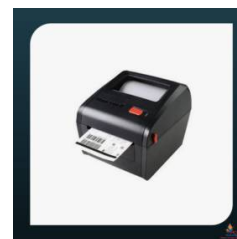

MINDEO MD2000AT USB LASER INCL STAND

The Mindeo MD-2000 laser barcode scanner is a general use 1D laser barcode scanner. If you are looking for a reliable, highly configurable and reasonably priced barcode scanner with all the features of expensive Barcode scanners then this is the best option available. Using these barcode scanners is easy, just plug it in, allow your operating system to detect the barcode scanner, and you are ready to go.

USB and Serial interface units are available. The Mindeo MD-2000 barcode scanner comes standard with auto sensing and a scanner stand.

- RJ-45 phone jack connector
- 2.0m Cable
- 630-650nm Laser Diode
- Beeper and LED indicator
- Dimensions: 76 mm x 66.5 mm x 168 mm
- Supported interface: RS-232, USB keyboard, USB virtual COM
- Decoding rate: 200 times/second

HONEYWELL PC42D THERMAL LABEL PRINTER

Featuring a solid double-layer housing, easy paper-loading design and media auto-centering function, the compact and elegant PC42d printer is easy to operate. Powerful and reliable, the PC42d printer is well suited for a variety of low-to-mid intensity thermal printing applications

Such as electronic express and logistics waybills, healthcare laboratory labels and wristbands, retail price tags and receipts, distribution center routing labels, boarding passes and the like. With 128 MB Flash and 64 MB SDRAM, which is several times larger than its competitors and supports up to a 32 GB USB expansion, the PC42d printer provides strong tag data pre-processing and caching capabilities. With an ARM926 core and 400 MHz high-speed processor, it can process high-volume tasks efficiently.

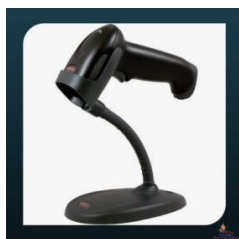

The PC42d printer delivers flexible industry-standard connectivity, with up to four built-in interface options: standard USB device and USB host, plus serial or Ethernet. With the rich interfaces, the PC42d printer easily integrates into virtually any application environment. The PC42d printer supports ZPL-II and EPL emulation, along with Direct Protocol (DP), and auto-senses the printing languages without any pre-setting, providing an easy upgrade path for competitive printers.

With a high-quality print head, advanced thermal management algorithms and broad thermal media compatibility, the PC42d printer delivers excellent printing results in an affordable, dependable desktop printer

HONEYWELL 1250G-1D BARCODE SCANNER

Extend your scanning range with the Voyager™ 1250g single-line laser barcode scanner. It aggressively reads linear barcodes up to 58.4 cm (23 in) away, making the job more comfortable and productive for your team. And the scanner is quick to switch to hands-free scanning with the included stand.

-Scan Farther

An extended depth of field lets you scan 13 mil barcodes from as far away as 447 mm (17.6 in) and larger barcodes up to 58.4 cm (23 in) away

-Automatic Interface Identification

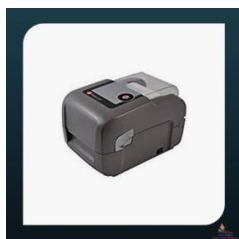

Supports all popular interfaces in one device, eliminating the time-consuming process of scanning programming barcodes.

-Superior Out-of-Box Experience

Simplifies setup, with quick and easy stand assembly, plus automatic in-stand detection and configuration.

-Ergonomic Design

Fits comfortably in most hands, reducing user fatigue in scan-intensive applications.

DATAMAX E4204B DT LABEL PRINTER

The Datamax-O-Neil E-4204B is a 203 dpi printer designed for a wide variety of industries and applications. The reliable and cost-effective E-4204B features a 4 inches/sec speed and 4.25 print width plus a choice of USB and Serial interfaces. The Datamax-O-Neil E-4204B's large roll capacity and quick-loading media prevents lengthy downtime and enables fast performance

-Affordable to Own

The E-Class Mark III was carefully designed to maximize your investment value by offering a competitive purchase price, double walled construction for increased durability and a proven design for long term reliability.

-Easy to Use

The E-Class Mark III makes it easy to replace existing printers or install new ones with popular language emulations included with each printer and a selection of connectivity options. Users will appreciate the easy-to-use LCD screen and quick loading media/ribbon.

-Economical to Operate

The E-Class Mark III reduces daily operational costs by minimizing power consumption, and reducing the costs associated with printer consumables such as labels and ribbons.

Specifications

-Dimensions: 8.01" w x 7.36" h x 11.10" d (203.5mm x 187mm x 282mm) 8.01" w x 9.56" h x 14" d (203.5mm x 243mm x 356mm)

1 Year CarryIn Warranty

EPSON TM-T20 POS THERMAL SLIP PRINTER

- Affordable:

This easy-to-use model is our most affordable POS receipt printer and has an 80mm printing width. Its Automatic Paper Reduction feature reduces top and bottom margins, line feed width and bar code height, allowing for flexible receipt printing. This monitors and controls the amount of paper used. Paper costs are minimized by printing the top logo of the next receipt before cutting, so the top margin is further reduced by 12mm.

- Reliable:

With its MTBF of 360,000 hours and a mechanism life of 15 million lines, you can rely on the TM-T20II in high-volume printing environments.

- Flexible:

The TM-T20II comes with a built-in USB interface and you can select from two models: 1) USB + Serial, 2) USB + Ethernet, making the model a long-term investment as it is possible to switch connectivity at any time.

- Fast:

Its print speeds of 200mm/sec can save you time and its competitive price and running costs can save you money, ideal for when you need to beat queues quickly.

Specifications:

- Printer Type: Receipt printer - thermal line - monochrome.

- Weight: 1.7 kg.

- Max Media Size: Roll (8 cm).

- Max Media Size (Custom): 80 mm.

- Print Speed: Up to 200 mm/sec - max speed.

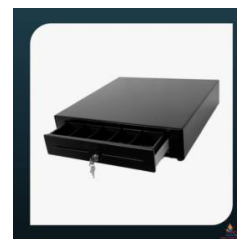

- Max Resolution (B&W): 203 x 203 dpi.

- Interface: USB 2.0, serial.

- Media Type: Receipt paper.

- Dimensions (WxDxH) 14 cm x 19.9 cm x 14.6 cm.

1 Year CarryIn Warranty
